Dear Atiqur,

In the meantime would you be able to answer the following?

As the customer needs detailed technical information about 3616 remote cooling system, including heat balance, design temperatures, cooling flows, cooling system schematics, etc... In order to collect quotes from local suppliers.

The available information from CAT brochure is not enough for thermal calculations.

Dear Victor,

We are still working with factory to get the quote. Factory is asking to provide several technical data which we had already given to them. Hopefully will get the approved quote by end of this week.

Thanks.
