Subject: G3516 800kW 480V

G3516 800kW prime, 480V, 11889 hours since new, Sound House, roof mounted muffler, freestanding control panel with breaker. Ohio Cat did maintenance its entire time in service and engine has not had any major work done, it's cherry. Asking \$65,000.00 loaded on your truck in Independence OH.

Make me an offer if interested and let me know if you want the enclosure. Removal date is July 24th.

I'm working on some freight numbers but it's expensive because two trucks are required, enclosure scoops & muffler will have to be removed and put on a separate flatbed. Enclosure dims 10ft Wide, 10Ft tall (with muffler removed), 35ft long(plus 6ft overhang for discharge scoop), All Three 8by8 scoops & muffler will be removed and loaded on a different truck.

Thanks

Josh Kramer
