Victor,

From Client:the site has been prepped to shut down so units don't have fuel in them. In the pics of the 3512, there are pics of the log books with details of the testing, which was performed by Peterson Power. We are selling other items as well, so won't know till the end of the day if we can let it go at that price...will depend on what we can get out of a couple other items on site. Will get back to you.

They have another generator at the site I will send you pics of that one also. They just sent to me.

Cathy,

If we can get a video of the unit running we can offer \$22,500 without the enclosure.

Please advise removal date.?

Thank you, looking forward to your reply.

Regards,
Victor Seropian
