Hi Victor,

Attached are pictures and below is information on a 600 KW 3412 Cat Natural Gas Generator. It is coming out of hospital in the first week of October. I have not solicited this generator to anyone. You are my first person I have told about. If we strike a deal on this generator today, I will not solicit this to anyone else. I am asking \$68,000 loaded on your truck. I would require 50% down now and the balance to be paid once loaded on the truck. This is a running unit in an operating hospital. The reason they are getting rid of this unit is they are upgrading their entire power plant. This is a great working unit, I've seen it run. Let me know your interest on this unit.
