Subject: New C9 9.3 Acert industrial diesel engines for sale

Good afternoon,

I just spoke with you on the phone about some new C9 industrial diesel model C9.3 Acerts that come with a DPF to match the serial number. Very interesting. I have been selling single units for \$12,000 each, orders of 10 or more are \$10,000 each. I have also attached an excel file with each serial number. Let me know if you are interested.

Thanks,

Zach Reed
